Maths

- o Efficient subtraction, estimating answers and checking strategies
- o Measurement – Area
- o Multiples of 3
- o 6 times tables
- o 9 times tables
- o 7 times tables
- o 11 times tables
- o 12 times tables
- o Multiply and divide by 1 and 0
- o Multiply 3 numbers

English

Reading: 'The Last Bear' by Hannah Gold

Discussing the features of non-chronological reports to inform understanding of structure, grammar and vocabulary.

Asking questions to improve understanding of a text.

Drawing inferences such as inferring characters' feelings, thoughts and motives from their actions, and justifying inferences with evidence.

Writing – Narrative writing for a story book

Writing – Persuasive writing

Spellings - Auto words, ly suffix words, inter words.

Science

Teeth and digestion

Enquiry Skills:

- **Observing and classifying:** Identify and compare different types of teeth, describe their functions and explore how the digestive system is structured.
- **Investigating and evaluating:** Make observations, record findings and draw conclusions about dental health and the effects of different foods and drinks on teeth.
- **Modelling and explaining:** Use practical models to demonstrate digestion, explain how food moves through the digestive system and construct food chains to show feeding relationships.

Knowledge Objectives

- o Identify the different types of human teeth and explain their functions in biting, tearing and grinding food.
- o Understand how to maintain healthy teeth through good oral hygiene and healthy dietary choices.
- o Identify the main parts of the digestive system and explain their roles in the process of digestion.
- o Understand how food chains show feeding relationships between living things and demonstrate how food is broken down as it moves through the digestive system.

Enrichment
